BENEFITS FOR THE SUFFERERS.-Mrs. John Drew and Mr. G. L. Fox have tendered the Arch Street Theatre, on Saturday afternoon next, for a benefit "matinee" to the Philadelphia Association for the Relief of Disabled Firemen, when the entire receipts on that occasion will be given to that noble institution for distribution. Tickets can be procured at the theatre, or from the President, Mr. George W. Tryon, or any of the Board of Trustees. The advertisement gives all the particulars.

To-morrow (Friday) evening a benefit will be given at this theatre to the families of the firemen who were killed at the late fire in Walnut street. A large number of well-known artists have volunteered their services, and the performance will undoubtedly be very fine, and we hope the house will be crowded.

WALBUT STREET THEATRE. -Mr. Joseph Jefferson appears this evening in his great role of "Asa Trenchard," in the comedy of Our American Cousin. Mr. Charles Vandenbeff will essay the part of "Lord Dundreary," and these stars will be supported by Miss Susan Denin and the company favorites. To-morrow and Saturday, last nights of Mr. Jefferson's brilliant engagement. Rip Van Winkle will be played.

ARCH STREET TREATER, -This evening Mr. G. L. Fox presents his lavorite pantomime of Jack and Gill, which proves as popular as ever. Mr. C. K. NOTICE TO MARINERS.

A dangerous rock, with three lathoms water on it, has been discovered almost in the centre of Seymour Narrows, Vancouver Island, but rather on the western side, between Maud Island and Wilfred Point, It lies SW. '3 W., nearly three cables from the northwest point of the island, and N.N.E. '4 E. three cables from the southeast extreme of Wilfred Point; It is near the position of the heaviest part of the tide race.

The passage is therefore dangerous for large vessels during the strength of either stream, and it is recommended to enter it—especially from the southward—at slack water, and to pass on the eastern side of the rock. NOTICE TO MARINERS. ock. All bearings are magnetic. Variation in 1887, 23%
